This volume contains a fragment from Aristotle's "Peri Hermeneias" [16a1 17a7], with a translation into English and a commentary. This fragment is crucial to the understanding of Aristotle's thinking about language. It is followed by (translations of) commentaries on Aristotle's text by scholars between 500 and 1750, showing how his text was perceived over time.

Aristotle's Formal Language Aristotle begins his explication of a formal structure for language by saying what a name, a verb, a negation, an affirmation, a statement and a sentence are. Because of his lack of explicit indicators to distinguish the mention of terms from their use, his language is fraught with ambiguity.

Ancient philosophy. In the West, inquiry into language stretches back to the 5th century BC with Socrates, Plato, Aristotle, and the Stoics. Both in India and in Greece, linguistic speculation predates the emergence of grammatical traditions of systematic description of language, which emerged around the 5th century BC in India (see Y?ska), and around the 3rd century BC in Greece (see Rhianus).

He began by distinguishing metalanguage and object language; an object language is the language (natural or formal) that is our target for analysis, while the metalanguage is the language in which we conduct our analysis.

### **Language, Philosophy of | Internet Encyclopedia of Philosophy**

Aristotle enumerates the affirmations and denials that can be assigned when 'indefinite' terms such as 'unjust' are included. He makes a distinction that was to become important later, between the use of the verb 'is' as a mere copula or 'third element', as in the sentence 'a man is wise', and as a predicate signifying existence, as in 'a man is [i.e. exists]'.

A sentence (or belief) is true just in case it is concordant with the external world. On Aristotle's view, the property expressed by 'is concordant' is a relative. Truth (the property expressed by 'is concordant with the external world') is not a relative but it is like a relative in certain respects.

...

Aristotle holds that ethos is the most important of these elements, since trust in the speaker is required if one is to believe the speech. However, the best speech balances ethos, pathos, and logos. In rhetoric, enthymemes play a deductive role, while examples play an inductive role ( Rhet .1356b11–18).
